

Australian Capital Territory

Construction Occupations (Licensing) (Mandatory Qualifications) Declaration 2014 (No 1)

Notifiable Instrument NI2014—503

made under the

Construction Occupations (Licensing) Regulation 2004, section 13 (Qualifications for individuals)

1. Name of instrument

This instrument is the *Construction Occupations (Licensing) (Mandatory Qualifications) Declaration 2014 (No 1)*.

2. Commencement

This instrument commences on the day after notification.

3. Declaration

I declare those qualifications specified in column 3 of the schedule to this instrument to be necessary for an individual to be eligible to be licensed in the construction occupation and occupation class specified in columns 1 and 2 respectively.

4. Revocation

NI2012-303 is revoked.

David Middlemiss
Australian Capital Territory Construction Occupations Registrar

15 October 2014

This is page 1 of the schedule to the declaration made by the Registrar under the Construction Occupations (Licensing) Regulation 2004

Construction Occupations (Licensing) Regulation 2004 Mandatory Qualifications Schedule

This is page 2 of the schedule to the declaration made by the Registrar under the Construction Occupations (Licensing) Regulation 2004

Schedule 1 – Common application criteria

Qualifications and Units of Competency

A reference to an AQF unit of competency or qualification is a reference to that unit of competency or qualification as described on the National Training Register at www.training.gov.au. If a specific unit of competency or qualification at the certificate VI AQF level or below is required for a licence or licence class, a unit of competency or qualification listed on the National Training Register that supersedes the specified unit of competency or qualification, or that is superseded by it, is taken to be the specified qualification unless otherwise indicated. This can be verified at www.training.gov.au

Electrician - Letters from employers for restricted permits and licences

All applicants for restricted permits and licence class in the occupation of electrician must provide a statement from their employer, or from the applicant if self-employed, stating the principal trade to which the incidental electrical work applies, and the need for the restricted electrical permit or licence in that trade. For permits, the letters must include the name and licence number of the person who will be supervising their work.

Electrician

Notes

The **Restricted Permit** Electrotechnology Systems is intended for the holder to undertake supervised work and training at an RTO to gain the qualifications required for a **Restricted Licence** in the class of licence relevant to their trade background.

The **Unrestricted Permit** Electrotechnology Systems is intended for the holder to undertake supervised work and training at an RTO to gain the qualification acceptable for obtaining an **Unrestricted Licence**. This training fills the gap between their initial qualification and the current Certificate III in *Electrotechnology Electrician* and is referred to as “gap training”.

The “gap training” may take the form of a training package delivered by the RTO, or individual units of competency required by the RTO, so the applicant can gain the Certificate III in *Electrotechnology Electrician*. It is expected that gap training should not exceed 18 months of part time study.

If an applicant requires more than 18 months part time study to gain the required qualification, the Registrar may require that the applicant undertake a nationally recognised contract of training as an electrical apprentice to gain the required qualification for unrestricted electrician.

Registrar's Initials _____

	Unrestricted Licence	<p>To be eligible for a licence applicants must meet one of the following methods:</p> <p>Method 1 - applicants must:</p> <p>have successfully completed one of the following Certificate III qualifications in <i>Electrotechnology Electrician</i> as described on the national training register and issued within five (5) years prior to making the application:</p> <ul style="list-style-type: none">a) UEE30811b) UEE30807c) UEE30806d) UTE31199 <p>and must have successfully completed one of the following units of competency not obtained through Recognition of Prior Learning (RPL):</p> <ul style="list-style-type: none">e) UEENEEG105A - <i>Verify compliance and functionality of low voltage general electrical installations;</i>f) UEENEEG005B - <i>Verify compliance and functionality of general electrical installations;</i>g) UEENEEG005A - <i>Verify compliance and functionality of general electrical installations;</i>h) NUE 505A - <i>Electrical systems safety;</i>i) NUE 505B - <i>Electrical systems safety.</i> <p>Method 2 - applicants must:</p> <p>have held an ACT Unrestricted Licence within five (5) years prior to making the application if that licence was not, or is not subject to a suspension or cancellation.</p> <p>Note:</p>

Registrar's Initials _____

Definitions

Reference to **building work experience** does not include—

quantity surveying, administering contracts, designing, drafting, and off-site fabricating, except for any periods where the activity involved the actual carrying out of building work by the person independently or under supervision; or

building work experience that is not verified to the satisfaction of the registrar, in that it is not independently verified by a person or people who are competent in making a verification of the extent, quality, relevance and recency of the applicant's experience doing similar work to, or work that is equally complex as, the work relevant to the application.

Examples of a **competent person**—

1. a person who holds a builders licence or building surveyor's licence authorising supervision or certification of similar kinds of building work to that which is the subject of the application; or
2. a structural engineer or architect acceptable to the registrar.

Basic building work has the same meaning as the term defined under section 10 of the *Building Act 2004*.

Equivalent means, when referring to qualifications, an equivalent determined by the Registrar.

Full time means, in respect of a period of time, the approximate total number of normal working hours that a person employed full time in the construction industry would be reasonably expected to work during that period.

Part time means, in respect of a period of time, at least half the approximate total number of normal working hours that a person employed full time in the construction industry would be reasonably expected to work during that period, but only for the 4-year period preceding lodging an application for a licence to which the term **part time** is applied in determining the application.

RTO – *Registered Training Organisation*

Relevant Practical means within the last 5 years

Unconditional means not subject to a condition or endorsement imposed by the registrar.

Note—

Where the registrar is not satisfied that an applicant has a qualification require to be eligible for the licence applied for, the registrar may (but does not necessarily have to) require the applicant to undertake an assessment to find out whether the applicant has a skill reasonably necessary to satisfactorily exercise the functions of a construction occupation or class of construction occupation under the licence applied for. Such assessments can include an assessment, a test and/or an examination.
