APPLICATION FOR A LICENCE TO STORE EXPLOSIVES 2015/2016

General Information and Instructions

What must be included in the application

The application must include all of the relevant information required from the *Dangerous Substances (Explosives) Regulation 2004*, and any other information required by this application form.

Note the following information:

1. This application, and any licence issued a result of the application, is for the purpose of storing the types of explosive/s listed in the licence at the premise listed on the licence only.
2. A licence will not be issued payment of the prescribed fee has been made. If paying by cheque, the licence will not be issued until the funds are cleared.
3. Where a licence is issued as a result of the application, it will include a condition prohibiting the sale of explosives under the authority of the licence.
4. This licence will be valid only in the Australian Capital Territory and will not transferable.
5. This application, and any licence issued as a result of the application does not specifically or by implication authorise any explosives or the manufacture, carriage, import, supply or use of explosives.
6. A licence to store explosives only allows the storage of authorised explosives.
7. If any information or document provided with this application is false or misleading, then the Director General may take disciplinary action under Part 4.4 of the *Dangerous Substances Act 2004*.

Collection and Use of Personal Information:

The Access Canberra WorkSafe ACT is collecting the information on this form to process your application request to store explosives under section 128 of the *Dangerous Substances (Explosives) Regulation 2004*. The information provided will assist in making decisions as to the suitability of the proposed licensee to hold a licence in accordance with the Regulation.

Other information may be disclosed to Commonwealth, State and Territory government agencies with responsibility for decisions that involve, or are impacted on by, the import of explosives. Access Canberra WorkSafe ACT may also disclose personal information to any person who is authorised by law to obtain it.

Australian Federal Police (AFP) and Australian Security Intelligence Organisation Security Assessment (ASIO) Checks:

It is a requirement of this application that a combined AFP and ASIO security assessment specifying the handling of explosives ('Check') be lodged through the AFP by the proposed licensee and any responsible person to be named on the licence. This Check applies to the proposed licensee where the application is lodged as an 'Individual' and any person who is to be a responsible person for the explosives. If this application is lodged by a Corporation /Partnership', a combined AFP and ASIO security assessment specifying the handling of explosives ('Check') be lodged by the responsible person(s) for the 'Corporation/Partnership', also lodge and provide a copy of an AFP name check for the 'Corporation/Partnership'.

In addition, the Director General reserves the right to require the proposed licensee to provide a recent Check on any close associates of the proposed licensee if the proposed licensee is a business.

Should the proposed licensee or any responsible person to be named on the licence lodge a standard AFP Police Name check, the result cannot be accepted by WorkSafe ACT and shall require a re-lodge for the appropriate Check. This would result in a delay to the licence application process.

Form Completion Note: At 'Section iv - specify position/entitlement' of the 'National Police Check application form', the proposed licensee and any responsible person to be named on the licence must specify 'Handling of explosives' and render the correct fee, to generate the required Check.

Copies of the AFP 'National Police Check application form' can be obtained from WorkSafe ACT.

Before signing and submitting this application, please read all information on Pages 1 to 3 of this application. Unsigned or incomplete applications or applications not accompanied by the required documentation or fee, where applicable, shall be returned to the proposed licensee for rectification.
