

## Notice to import explosives or security risk substances into Western Australia

*Dangerous Goods Safety Act 2004*

Dangerous Goods Safety (Explosives) Regulations 2007

Dangerous Goods Safety (Security Risk Substances) Regulations 2007

ABN: 69 410 335 356

### Requirements for this notice

This notice is to be used for imports of explosives or security risk substances.

- Separate notices are to be provided if:
  - explosives and security risk substances are included in the same shipment
  - or
  - a shipment contains explosives/security risk substances that are to be delivered to different consignees upon arrival in WA.
- The person importing the explosives or security risk substances must hold a current explosives or security risk substances import/export licence.
- This notice must be lodged by the licence holder with Resources Safety at least 7 days prior to the date of expected arrival.
- The licence holder must provide with this notice a Material Safety Data Sheet for all of the explosives or security risk substances detailed in the notice.
- A certificate of analysis (signed by the licence holder) must be provided (security risk substances only, if required by the Chief Officer [r. 19]).

### Relevant international requirements

For the purposes of these regulations 'relevant international requirements' means:

- for explosives transported by water - the latest edition of the International Maritime Dangerous Goods Code published by the International Maritime Organisation
- for explosives transported by air – the latest edition of the Dangerous Goods Regulations published by the International Air Transport Association.

### Retention action for notices

- Licence holders must retain records of all imported explosives for 2 years after the date of the import.
- Licence holders must retain copies of all security risk substances import notices for 2 years after the date of import.
