Environment Protection and Biodiversity Conservation Act 1999

The *Environment Protection and Biodiversity Conservation Act 1999* (the EPBC Act) provides for the protection of the environment, especially matters of national environmental significance (NES). Under the EPBC Act, a person must not take an action that has, will have, or is likely to have a significant impact on any of the matters of NES without approval from the Australian Government Environment Minister. The Great Barrier Reef Marine Park is now a matter of NES under the EPBC Act (sections 24B and 24C).

To help you decide whether or not your proposed action requires approval from the Environment Minister, guidance is available from the Department of Sustainability, Environment, Water, Population and Communities (DSEWPaC) website (www.environment.gov.au/epbc). Where approval from the Environment Minister is required, a proposed action will need to be referred by the applicant to the DSEWPaC. The purpose of a referral is to obtain a decision on whether the proposed action will need formal assessment and approval under the EPBC Act. A referral form can be obtained from the DSEWPaC website.

Referral of an action under the EPBC Act is deemed to be an application under the *Great Barrier Reef Marine Park Act 1975* (see section 37AB, *Great Barrier Reef Marine Park Act 1975*). The DSEWPaC will forward the referral to the GBRMPA to commence its permit processes as required under the *Great Barrier Reef Marine Park Regulations 1983*. For more information on the EPBC Act and making a referral, call the DSEWPaC's Community Information Unit on 1800 803 772 or visit the website at www.environment.gov.au/epbc.
