

MediQ

(formerly known as Queensland Pharmaceuticals & Nutraceuticals Industry Forum - QPNIF)

5-year + Plan

Vision

Supporting the Medicines Industry and their initiatives in Queensland

To establish Australian medicines as a leading brand in the world market

To promote the uptake, acceptance, research validation and integration of Complementary Medicines so that Industry and Stakeholders create a positive impact on reducing disease and healthcare costs in Queensland/Australia.

Values

- » Quality, safety and Queensland based products and firms
- » Partnering with industry, researchers, academia and government
- » Niche driven products and opportunity: "Think local, go global"
- » Innovation, integration into mainstream health and industry led
- » Future focussed for firms and stakeholders

Four pillars of focus to drive growth of the ecosystem

Regulatory Reform

Manufacturing

Innovation / New Product Development
