Pursuant to s.128 (1)(ba) of the Fire Service Act 1979 and r. 8 of the General Fire Regulation 2010

Application to:

(please tick the appropriate box/es)

Install

Maintain

Repair

a Fire Protection System

If yes, are you seeking to amend the scope of that permit?

Yes No

Type of system/s this application relates to:

1. An automatic fire sprinkler system

2. An automatic fire detection and alarm system

3. A sound system and intercom system for emergency purposes

4. Other Please describe

Name of permit applicant (if company, please provide name and ABN)

.....
.....

Postal address

.....
.....

Phone B/H **Mobile**

Phone A/H **E-mail**

Are you an accredited building practitioner? Yes No if yes, number

The permit holder is responsible and accountable for all aspects of work relating to this permit. As part of the application renewal process, please address the following:

- When installing, maintaining and/or repairing a fire protection system, the permit holder must conduct all work strictly in accordance with the relevant requirements detailed in the Tasmania Fire Service 'Fire Protection Systems – Code of Practice'.

Do you understand and agree to comply with the (relevant sections) of the Code?

Yes No

- Adequate after hours service must be provided. Please list your after hours contact details in the table below.

Note: It is highly probable this list will be accessed by the Tasmania Fire Service in the case of an emergency or for after hours contact and it is therefore important that details are upgraded as required and forwarded to the TFS immediately after any changes occur.

Name	Phone	Facsimile	Mobile

3. Please attach a brief summary detailing the scope of work this application entails and on a separate page/s a curriculum vitae (CV) for each employee associated with conducting this work. Each CV should specifically address all competence (knowledge, skills, experience etc) that is relevant to the work to be undertaken by each person/s, their experience in interpreting Codes and Australian Standards and detail all previous experience working with fire protection equipment.

Where there is little or no previous fire protection systems experience to draw on, it is incumbent on the applicant to provide the necessary evidence to demonstrate how the requirements detailed or referred to in the code of practice will be achieved.

CV and other details attached: Yes No

4. Independent references shall also be sought to validate the competence of the permit applicant/s. Please list below the contact details for 3 nominated referees who are able to attest to the claims made in your application and CV. The Tasmania Fire Service will write to each of the nominated persons seeking specific supporting information about your application. **Note:** Referees must be in a position to be able to attest to the applicants' competence and performance in the range of work associated with this application.
